THE DEVON JUICER

FROM KINGSBRIDGE

where the best
of Devon juice is
created, naturally.

We are new, but the source of our juice comes from our orchard trees – some of which are over 100 years old.

What is different about Devon Juicer?

We want your juice to be as fresh as possible. So, we press our juice as soon as possible at our traditional press (built in Newton Abbott in 1930) in Woolston (just outside Kingsbridge).

- Our Juice will never be sold more than 50 miles away (we want it to stay in Devon).
- Each of our 75cl bottles contains at least 8 apples, each hand picked.
- All our trees are all chemical and pesticide free.
- Our approach is simple – if the apple isn't good enough to eat, it's not good enough to be pressed.
- And of course our juice is never, ever diluted.

People are looking to drink healthier and buy local...

- 83% of consumers believe that licensed outlets should stock more 'healthy' soft drinks
- 80% of people prefer a soft drink at lunchtime rather than alcohol
- 62% of people would rather drink a locally produced drink than a national mainstream brand when available
