Roberts Country Fayre evolved from a long-standing family business specialising in the small pie product range. Continued expansion over recent years has incorporated the development of the large pre-portioned speciality pies.

In March 2010 Roberts Country Fayre won gold, silver, and bronze awards for their products in the North and South Wales Food Excellence Awards.

The range includes savoury pies, cold cutting pies, quiches, and sweet pies. Ready meals for the catering industry in multi-portion size and individual portions are available.

All products are hand finished in our approved manufacturing facility in Wrexham.

The business was established in 1932 by the current owner's grandfather. Since the beginning we have always provided the best quality using local produce wherever possible.
